

RECYCLE **FOR** LITERACY

This is a program created and sponsored by the Wilder Elementary School 6th Grade Class and supported by their PTSA.

This project collects, sorts and distributes gently-used children's books (any kind and all ages), children's magazines (Highlights, Teen Beat, National Geographic, etc.) and reference books (dictionaries, encyclopedias, etc.)

The items will be donated to Woodin Elementary. Woodin's mission is to see that all children in their school have opportunities to read. However, their teachers' classroom libraries are very slim. **Our goal is to help them replenish and refurbish their classroom libraries.**

Also, our program will be providing any donated infant, toddler and younger children's books to "Healthy Start". Healthy Start is a King County sponsored program and their mission is to "strengthen young families and to promote health and success for their children."

Our collection dates are Wednesday, January 16 - Wednesday, January 23, 2008! Please send in your donations and place them in the designated boxes around Wilder.

If you should require assistance or you have specific questions, please contact Debbie Love at 425/861-4789 or email at Debbie.love@verizon.net.

Let us all help our neighbors delight in reading!

Thank you!
